

## New classrooms at Chikowa Primary School

### Upcoming building trip

Hi All,

In August 2019 a happy band of nine volunteers are heading off to Tanzania for two weeks on another school building project. This time we will be helping local builders to construct a two-classroom block at **Chikowa Primary School**. This is the rural school Azar has chosen to support, as well as our other school at Kisasa.

However, Chikowa needs four classrooms, and we're keen to commission the other two-classroom block as soon as we are able. We have enough money for three classrooms, but we need to raise extra funds for the last one, which will cost around £8,600.

Two classrooms will comprise of a low surrounding wall with pillars supporting a timber and tin sheet roof approximately 16 x 8 meters floor area. The pink represents the room we need to raise funds for.

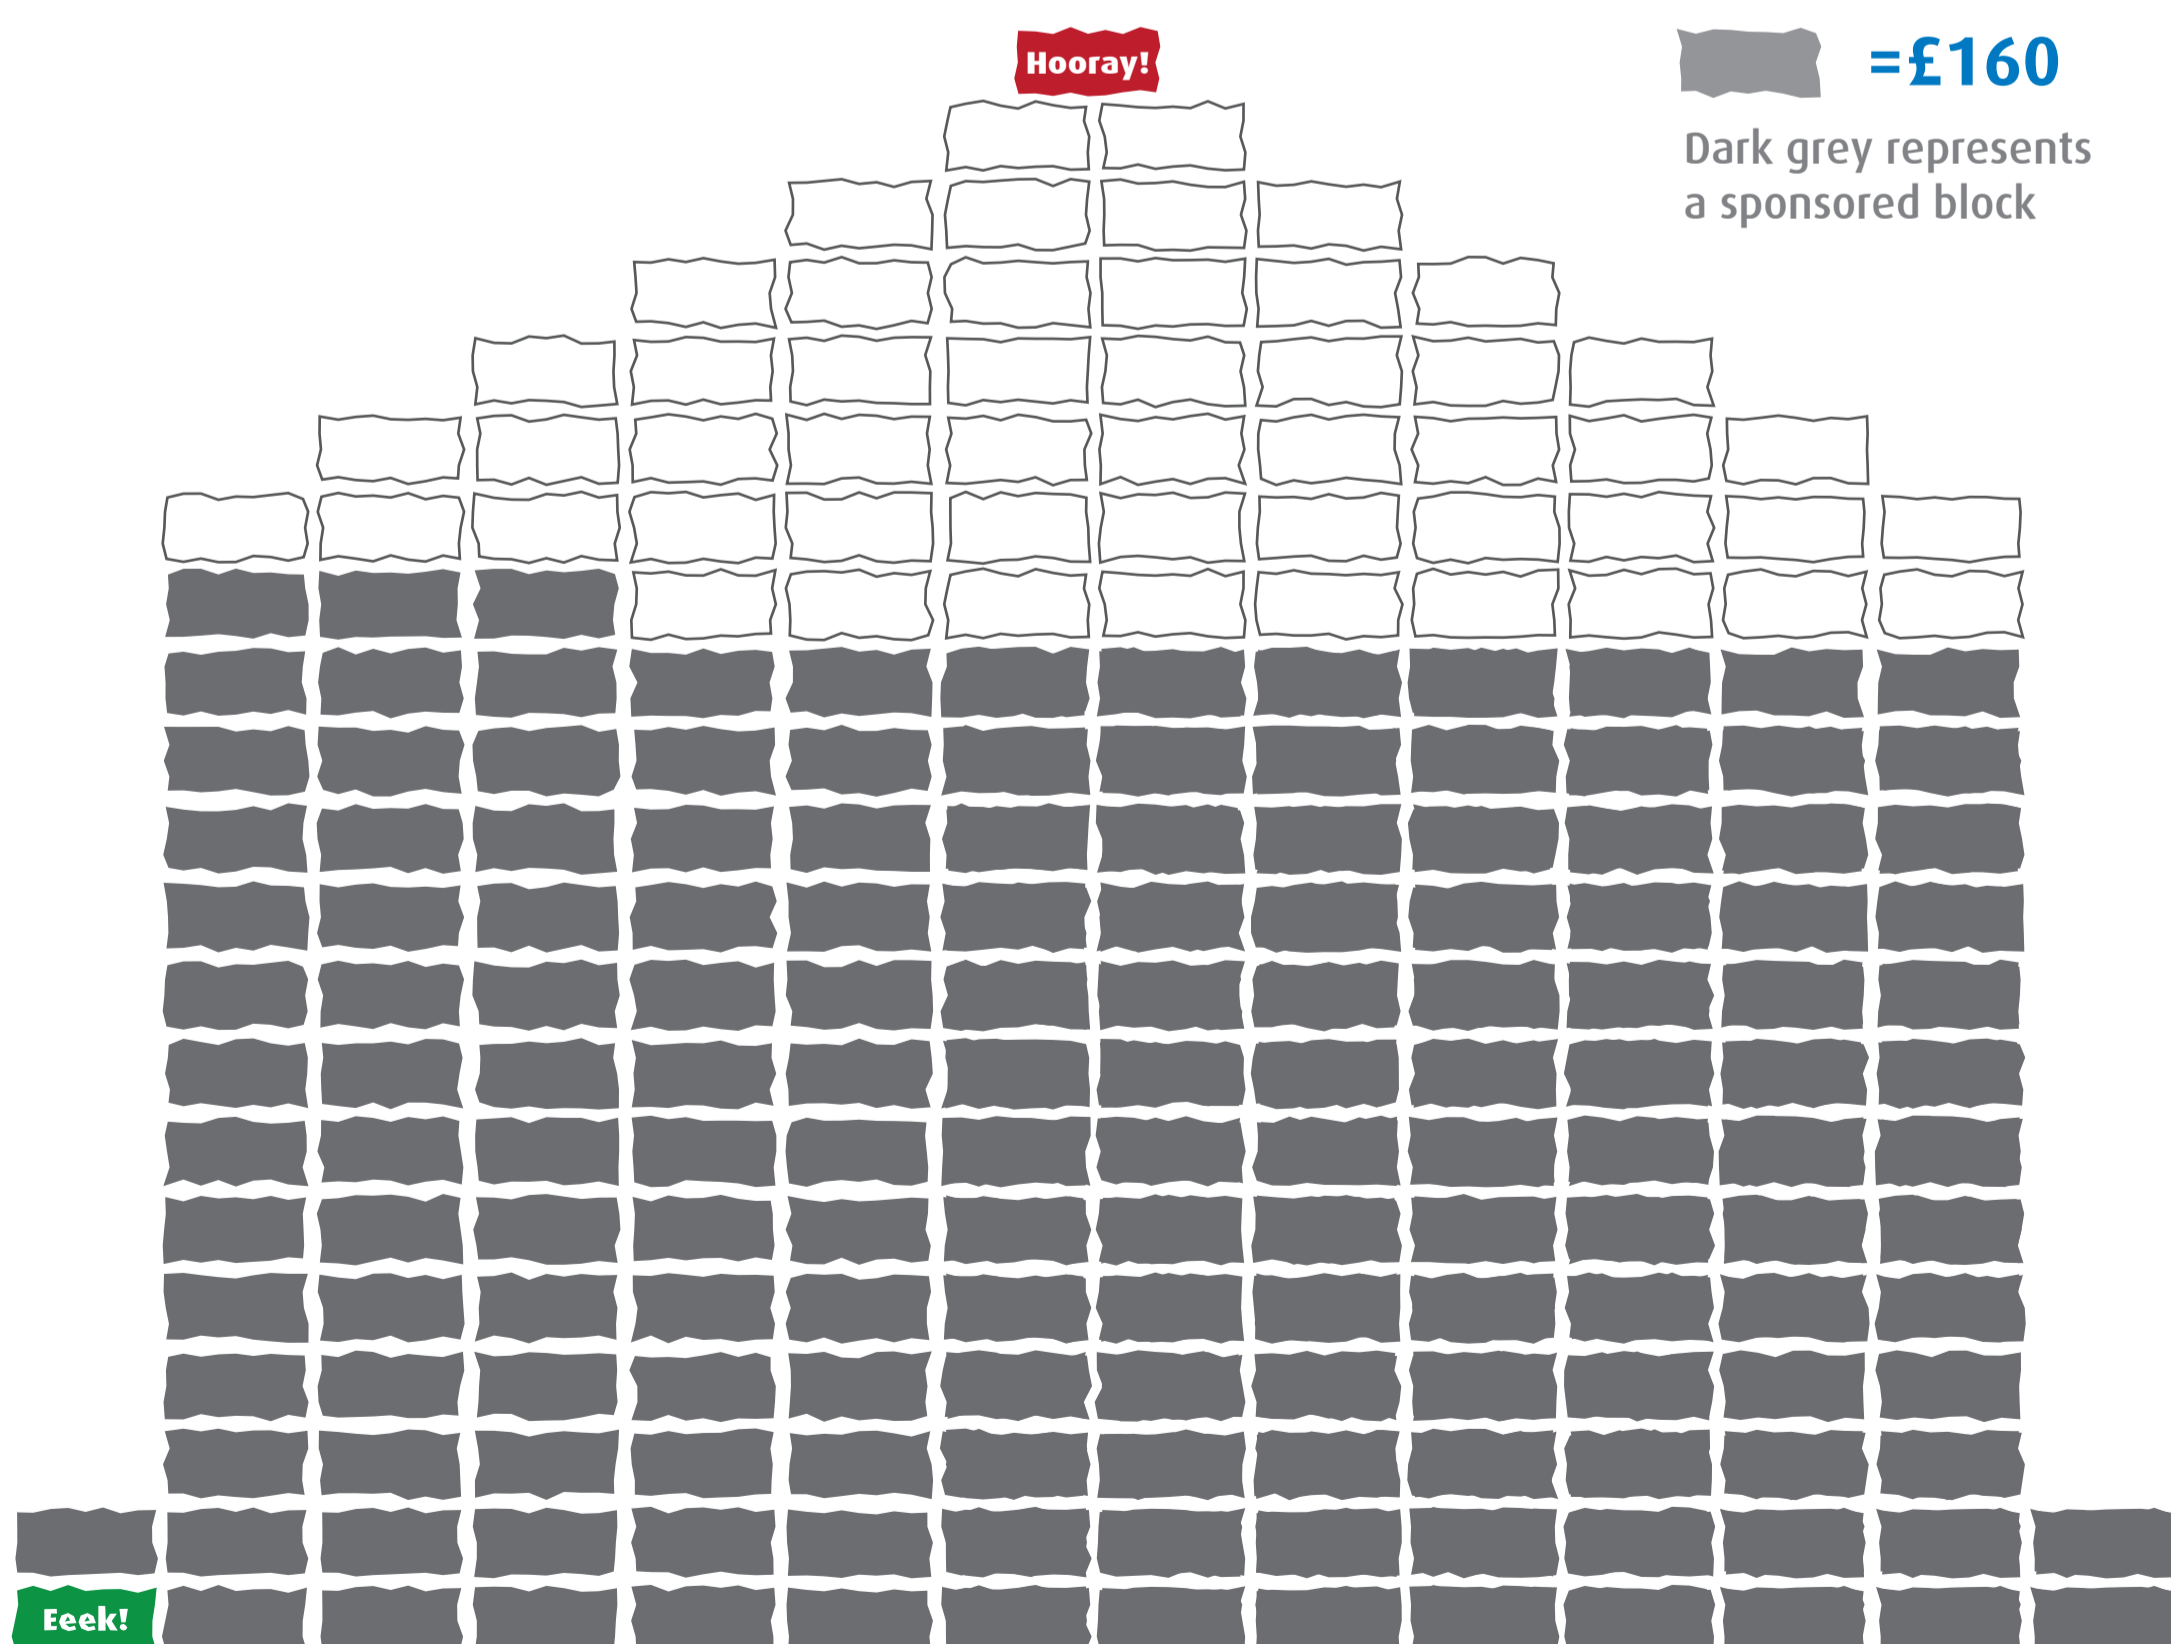

### Can you help?

We hope to have all classrooms completed by next year and so we need to raise those funds. Below is our **'Classroom Block-o-Meter'** which gives a visual representation of progress of money raised.

Each block represents **£160** just to give you an idea. You can buy a sixteenth, an eighth, a quarter, a half, a whole or even some of the cement in-between! Whatever you like. We're just grateful you want to see this built as much as the AZAR team do.

**This is where we are as of 11th July 2019, with 76% of funds now raised.**

### Chikowa Primary School Classroom Block-o-meter

You can buy a piece of Classroom by clicking on the [Virgin Money Giving Link](#). Alternatively, you can give cheques (made out to AZAR) to any AZAR representative. (Please write 'Classroom' on the reverse).

Please gift-aid your donation if you are able. This raises a further 25% on your donation, at no cost to you.
